I) Call to Order

II) Roll Call

A. 10 Year Town Vision Development

- a. The process was explained that the meeting was to start the development of a 10 year vision for the town. What aspects of the town should look like in 10 years time. Once the vision is in place then the progress required to meet it, will be broken down into manageable 'slices'. This is usually 3 strategic goals of around 3 years each. Then, the first strategic goal is refined into a 12 month action plan. All progress is to be measured to show quantifiable success or otherwise.
- b. The vision will include all aspects of the town: residential, commercial, infrastructure and amenities.
- c. There was a very positive discussion with input from all council members and residents.
- d. The draft vision statement can be developed from this input with approval at a future council meeting.
- e. Some current issues regarding safety and appearance of certain properties would need to be addressed before we can move forward.
- f. Services for residents should be improved. In particular, for the senior residents. However increased diversity should be a long-term goal.
- g. Increasing commercial enterprises is desired but will require an increase in visitors in order for commercial enterprises to flourish. The idea of having McIntosh as a tourist destination was an idea considered at some length. Other commercial ideas were discussed such as pop-up restaurants and food trucks, that require lower traffic numbers.
- h. Improving resident participation in town events was seen as very desirable. Ideas for food truck rallies, movies or music in the park were some of those ideas.
- i. A survey should be developed that will not only garner ideas and concerns from all residents. But also provide a baseline resident satisfaction score that can be used as a key metric.
